Types of Partnerships We Have Explored

• Other Health Centers: Equal Size; One Large, One Small
• Private Practices
• Other Non-Profits, Such as Mental Health Agency
• Fiscal Agency/Non-Profit Status Role
Reasons to Pursue

• Size to handle health care complexity, support infrastructure
• Respond to advice/pressure from funders/attract new resources
• Grow numbers
• Grow into new communities
• Support respected long term private providers in underserved communities
• Support the maintenance and growth of needed services
• Act as responsible, larger, more stable non-profit in community
How might a partnership address growth needs and service gaps? Can you identify potential partnership options that could address these needs?
